Back Ground on Mafia Mobil Air:

Arlyn and Kyle Hansen are the owners of Mafia Paintball and do business as Mafia Mobil Air. They have been avid paint ballers for several years and discovered that there was a serious need in the industry for Professional, High quality air at major events and some minor. This prompted them to deliver on that need. Thus started Mafia Mobil Air. This is a totally unique and beautiful set up that will add value to any event.

Their truck is a "Swat" type vehicle that is purpose built to accomplish this need. As you read above, this truck is well suited for large and medium events. They are supremely confident that they can do events with over 1,000 players Their truck is equipped with two hose reels with over 150 feet of hose in order to set the fill stations away from the truck when necessary. This keeps the noise down and is more convenient for the players.

Mafia Mobil Air is experienced and has done several large events including an SPPL tournament and Super Games. They have serviced over 500 players per hour and have never filled below 4,500 PSI unless requested. This has been their goal and is a trademark quality they stand by. They feel the needs of the players and want to help make the event as enjoyable as possible and grow the sport of Paintball. Comments and handshakes from highly satisfied customers are constant and greatly appreciated.

Mafia Mobil Air is just that, Mobil. Since the truck is self-contained, it can travel to events and set up in a matter of minutes. They are in the process of getting video and a website to showcase the truck. In the end, the only way to fully appreciate what we can do is to allow us provide the air at your events.

Thank you very much,

Arlyn ,Kyle and Jordon Hansen
